Call for Papers

The [International Association of Educators and Researchers \(IAER\)](#), registered CIC (Community Interest Company) in England and Wales, is happy to arrange the [First International Conference on Emerging Technologies in Computing \(iCETiC '18\) 2018](#), which will be held from 23rd -24th August, 2018, at London Metropolitan University, London, UK.

All presented papers will be published by Springer and made available through SpringerLink Digital Library, one of the world's largest scientific libraries, within LNICST.

Proceedings are submitted by Springer for inclusion to the leading indexing services:

The conference will draw together researchers and developers from academia and industry. **iCETiC '18 Proceedings will be published in the Springer-Verlag Lecture Notes of the Institute for Computer Sciences, Social Informatics and Telecommunications Engineering (LNICST) Series, in cooperation with EAI.** For inclusion in the Springer-Verlag LNICST series, the papers must adhere to Springer's Guidelines for Authors of Proceedings, instructions for which can be found at: [ftp://ftp.springernature.com/cs-proceeding/svproc/guidelines/Springer Guidelines for Authors of Proceedings.pdf](ftp://ftp.springernature.com/cs-proceeding/svproc/guidelines/Springer_Guidelines_for_Authors_of_Proceedings.pdf) The easiest way to do this is to download and use the [MS Word 2003 Proceedings](#) template. Selected papers for consideration for further publication from the conference may be recommended for the following journals, as shown in the table below. This will be after they have been asked to be substantially extended and enhanced. However, the journals' respective Editor-in-Chief and the members of the Executive Board will make the final decision about the inclusion of the papers. Furthermore, invited extended papers will be published in an edited book by Springer-Verlag.
